

B.K ENTERPRISES

B.K ENTERPRISES ARE LEADING MANUFACTURER OF TRACTOR AND MOTOR PARTS.

The spark to become distinctive has ignited since 2005 in developing tractor & motor parts. With quality parts we felt our presence in the domestic market. We attribute our excellence to hard work & dedication to quality. We manufacture in our self-sufficient premises with our expert & technical employes. With our best and most comprehensive multi-working infrastructure and in-house quality system, we are working with India's most famous companies.

The company's prime objective is to produce superior quality products at competitive price through high productivity . Our greatest reward of relentless growth is immense confidence generated amongst the rapidly growing family of customers through its no compromise policies on quality. The stiff competition and appetite for excellence is a big challenge. But with quality standards, kaleidoscopic nature of service, timely delivery, vision to expand are the ethical business practice which we commit and we honor this commitment.

Our good business practice and transparent mode of working is a result of high qualified and professional management. This enables us to keep on adding new products to our range and give Value For Money (VFM) to out customers.
